EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. Claims 7, 9, 11-12, 14, 16-17, 23-30, 35, and 40-48 are allowed.
2. Claims 1-6, 8, 10, 13, 15, 18-22, 31-34, and 36-39 are cancelled.
3. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose a computing system comprising a rounding apparatus to round to nearest integer comprising an adjustment generator generates the adjustment value by performing a bit-wise logical OR operation on the sign bit and the selected real value, wherein the selected real value is 0.5 as cited in independent claims 7, 23, and 35; a rounding apparatus to round to minus and plus infinity comprising a comparator to generate a Boolean mask by performing a "less than" and a "greater than" comparison of the fractional portion of the input value and a first selected value as cited in independent claims 9 and 14 respectively and performing a bit-wise logical AND operation on the Boolean mask and a selected real value as cited in independent claims 40, 43, and 48.

The closest found prior art is Yuval (U.S. 6,535,898). Yuval discloses a processor representation of a floating-point data item is converted to a representation of a truncated integer item without changing the rounding mode of a processor. However, Yuval fails to disclose particular limitations in a round to nearest integer; to minus infinity; and plus infinity mode as cited above.
